SCENARIO END & SPOILS

When Does It End?

- ♦ **!** Goal met → the scenario ends at the **end of that round** — keep playing it out: loot, finish battle-goal business.
- ♦ **Loss** = everyone exhausted, or the goal becomes impossible.
- ♦ Coins left on the floor **vanish** — nobody banks them.

Everyone – Win or Lose

- ♦ Bank the **XP tracked on your dial/cards** during the scenario.
- ♦ Convert **looted coin tokens** to gold at the scenario-level rate (see table). Exhausted characters keep what they gathered before dropping.

On Victory

- ♦ **!** **Bonus XP = 4 + (2 × scenario level)** each — including exhausted characters. (Level 1 = 6.)
- ♦ Reveal **battle goals**: fulfilled → mark the ✓ shown (1 or 2). **Every 3rd ✓ = 1 perk** (max 18 ✓).
- ♦ Tick the scenario complete; read the conclusion; apply unlocks & rewards; note the next scenario(s).

Scenario-Level Table

MONSTER LVL	0	1	2	3	4	5	6	7
GOLD / COIN	1	1	2	2	3	3	4	4

BONUS XP	4	6	8	10	12	14	16	18

Back in Town

- ♦ Refresh & unflip **all items**; clear conditions; reset HP; all cards return to hand.
- ♦ Shop: buy at cost, **sell at half** (round down).
- ♦ Level up if XP allows (see Sheet IV).
- ♦ **Encounter one city event** after every successful scenario (Scenario 3 on): draw, pick one of two options together, file it away.

On Failure

- ♦ **Money tokens, XP & treasure loot** earned before failure carry into the retry. Everything else resets. (Treasure loots once, ever.)
- ♦ No completion bonus. **!** **Battle goals score NOTHING on a loss** — the ✓ only lands on a completed scenario. Card is discarded either way; draw fresh next time.
- ♦ Set the scenario up again and replay at no penalty.
